\*There are exceptions to the MVRT for vehicles outside the taxable boundaries or that share a zip code with a taxable location. For further information contact DMV to see if the vehicle is exempt or not.

## Important Notes for Using the Chart and Alaskan Vehicle Registration

**Registration Fee** is a standard fee assessed by the state based on the type of vehicle to be registered, passenger car, motorcycle trailer, commercial vehicle etc. This fee is prorated based on the number of months to be registered.

**Motor Vehicle Registration Tax (MVRT)** is a tax assessed by the municipality or borough of residence at the time of registration and is collected by the DMV. This fee is not prorated except for a commercial vehicle registering for 12 months. Not all areas collect this tax, see "Taxable Location" on the chart above. This fee is collected only during the original issuance or renewal of registration. The fee is based on the vehicles type and age or age and weight for commercial vehicles. It is not collected again if the vehicle changes ownership or residence location during the registration period unless registration is expired for another reason.

### Vehicle Age

A vehicle's model year is used to determine age when calculating registration taxes for the location in which it resides. A vehicle is always considered to be 1 year old during its model year and becomes a year older on January 1st the following year. The lowest category of fees for vehicles is 8 years of age or older. Example: 2020 Honda Civic becomes 4 years old on January 1st, 2023.

### Types of Vehicles

**Commercial** is for any vehicle or trailer that is used for commercial purposes except taxicabs, farm vehicles and tour buses that have their own specific fee category. Vehicles that weigh over 10,000lbs that are not motorhomes, and vehicles owned by a business or company including leased vehicles even if used for non-commercial purposes by the lessee are also registered commercially.

**Non-Commercial** is for any vehicle or trailer that is not a taxicab, tour bus, farm vehicle, off-highway or commercial.

**Taxicab** is a passenger vehicle, maintained for hire, which does not operate over a scheduled route.

**Tour Bus** is a vehicle that seats 20 or more passengers and is used exclusively in a business for transporting visitors and tourists.

**Farm Vehicle** is a vehicle owned by ranchers, farmers, dairymen as well as greenhouses and nurseries with a weight not exceeding 20,000lbs and is used exclusively for those operations.

**Motorcycle** is a vehicle manufactured for highway use designed to travel with no more than 3 wheels in contact with the ground most commonly having a saddle. This includes mopeds and autocycles.

**Trailer** is any vehicle commercial or non-commercial, designed for highway use, that is not self-propelled and is meant to be towed or pulled by another vehicle This does not include truck bed toppers or slide in truck campers.

**Off-Highway Vehicle:** any vehicle regardless of weight or ownership that is not manufactured to meet highway safety standards. This includes dirt bikes, ATVs and Snowmachines. Some Off-Highway vehicles may be registered as All-Purpose vehicles (APV) if they meet design and location requirements.

### Registration and Transfer of Ownership

When a vehicle registered in Alaska is sold the previously issued registration transfers to the new owner, including an expired registration. A license plate that is not personalized or special issue stays with the vehicle. A personalized or special issue plate is surrendered or retained by the previous owner without registration and a generic plate is issued during the transfer.

Vehicle registration does not transfer to the new owner and is expired when:

- The previous registration was obtained under an exemption except the military exemption. (See below)
- The vehicle is now being used commercially where previous registration was for a non-commercial vehicle

### Renewing Registration

Registration may be renewed within 3 months of the current expiration date or whenever a previous registration expired due to a transfer of ownership. Registration can never be issued for a period exceeding 24 months. Registration renewed not as part of a transfer of ownership and that is submitted in person, not by mail, online or at a DMV business partner is assessed a \$10 additional registration fee.

### Expired registration

For registration that is expired less than 12 months, unless the registration expired while being held by a licensed vehicle dealer, the registration date and fees are calculated from the date of expiration even if the new owner was not responsible for the lapse in registration. MVRT is calculated based on the tax year and age of the vehicle when it expired. This may require the tax chart of the previous year be used to calculate correct registration fees.

## Registration Exemptions

The list below contains non-commercial vehicle exemptions that may be granted to an individual upon original or renewal of registration.
